

Day 5 Testing and ErrorHandling

The product list, cart, and checkout process are working perfectly, ensuring a smooth shopping experience. Customers can easily browse products, add them to the cart, and proceed to payment without any issues. The entire website is functioning efficiently and without errors. Navigation between pages is quick and user-friendly. Overall, the website provides a seamless and reliable experience for users.

My website is fully responsive, adapting seamlessly to all devices and screen sizes. It ensures an optimal user experience on desktops, tablets, and mobile devices.

Api Work

The APIs on my website are functioning flawlessly, ensuring smooth communication between the frontend and backend. All endpoints are responsive, providing accurate data retrieval and updates. Integration with third-party services is seamless, enhancing the overall functionality. Real-time responses ensure a fast and efficient user experience. Error handling is well-implemented, minimizing disruptions for users. Overall, the APIs contribute to the website's reliable and efficient performance.
